Polyethylene Roof made w/ UV resistant resin

Our slides only require 5 to 10 gallons per minute to operate. Fiberglass slides require many hundreds. By using less water you save money on both operations and maintenance

High Tenacity Polypropylene Netting or optional No-Climb PVC coated Steel Tuff Net.

Safety is our first priority! Tuff Skin Post Padding surrounds all of the metal pipes and protects the kids should they fall.

We use T6 - 6061, Schedule 80 Aluminum Pipe not Galvanized Steel Pipe like our competitors. No matter how great the paint, all steel structures will eventually rust!

State of the Art Aluminum Magnesium Pipe Connectors like those used at NASA are used to connect the Aluminum Pipes.

Polyethylene Decks made with UV resistant resin ensure a virtually maintenance free life.

Ascent consists of 12" Deck Climbs

We use only Polyethylene Tubes made with UV resistant resin not fiberglass! Fiberglass slides need to be reglazed every few years and are expensive to maintain.
